Ready-to-use solution for disinfecting surfaces and equipment.

Filtered at 0.2 µm.

Complies with the decree of 19/12/13 amending the decree of 08/09/1999 concerning products for cleaning materials and articles intended to come into contact with foodstuffs.

INSTRUCTIONS FOR USE

Ready-to-use liquid to spray on surfaces to be treated. Spray alcohol at a distance of 10 to 20 cm. Let dry. Do not rinse.

CHARACTERISTICS

Appearance :	liquid
Colour :	colourless
Perfume :	alcohol
Density :	= 1
pH :	10 ± 1

PRODUCT TYPE

Surfaces disinfection (PT2-PT4)

Use biocides safety. Before using, read the label and product information.

ACTIVE SUBSTANCES

Contains:

Propane-2-ol (N°CAS 67-63-0 ; 700.0 g/kg)

MICROBIOLOGICAL ACTIVITY

Bactericidal: EN 1276 (dirtiness conditions – 30 secondes – 20°C), EN 13697 (dirtiness conditions – 1 min – 20°C)

Yeasticidal: EN 1650 (dirtiness conditions – 30 secondes – 20°C), EN 13697 (dirtiness conditions – 1 min – 20°C)

Virucidal: EN 14476 on Adenovirus, Norovirus murin (dirtiness conditions – 60 secondes – 20°C), Influenza virus, Rotavirus (dirtiness conditions – 30 secondes – 20°C), Vaccinia virus (dirtiness conditions – 15 secondes – 20°C).

PACKAGING

5L can

750ml spray

Réf. LB922700

Réf. LB920722

SECURITY

For professional use only.
